Such an insight as to the supererogatory-wholesomeness/profound-supererogation<sup>96</sup> of organic-knowledge for say present-day institutional-development-as-to-social-function-development can be garnered with the patent case of say knowledge for the management of a nuclear facility which is much more than its mere inherent processive technicalities (‘knowledge as a mere doable thing’) but equally with the technicity/profundity extending to the facility operators reflexive and contemplative appreciation of the dangerousness of nuclear materials and processes and ability to critically take appropriately conservative and cooperative or autonomous decisions to stave off any potential

This reflects in-many-ways registry-worldviews/dimensions relatively accidented relation with the

‘sublimating/desublimating re-thinking/re-rationalisation of what is the-human/humanity’ and so across the varying ~~psychologismic epistemic acutisation—difficulty~~ ~~<for, residualising—~~ ~~{decompulsing} delinearity—for cogency>~~ magnitudes<sup>{of-experientiality/experiment}</sup> of human aestheticisation—and-aestheticisation-towards-ontology-<elicited-idiomatisation>. This insight is underlied by ‘prospective sublimating—nascence\_incipience/instantaneity/directness—~~{ontologically flawed prior mere social functioning and accordance—as of social stake—~~ ~~contention-or-confliction}~~~associative-distortion—of-referencing/registering/decisioning’ arising with say a merely positive-opportunism—of-social-functioning-and-accordance<sup>75</sup> ontologically-flawed conception substituting for ontological-veracity-<as-to-prospective-ontologising-and-re-ontologising> that doesn’t speak to ‘prospective postconverging—~~aporeticism—overcoming/unovercoming~~ of prior-perspective—falsity/falseness/fallaciousness’. This is so-reflected geopolitically in many a developing country ‘relatively poorly-detached social enculturation of intellectualising/thinking-out/ontologising conception of overall sovereign polity design-and-implementation substantivity’ as to the manifest enculturating of suboptimal/desublimating punctual polity interventions and nepotic/tribalistic associated ends (reflecting a positive-opportunism—of-social-functioning-and-accordance<sup>75</sup> ontologically-flawed conception substituting for ontological-veracity-<as-to-prospective-ontologising-and-re-ontologising>) that in-many-ways critically undermine and renders relatively redundant/ineffective such a developing country’s ‘supposedly relatively detached social enculturation of intellectualising/thinking-out/ontologising conception of overall sovereign polity design-and-implementation substantivity’ (as rather failing ‘prospective postconverging—~~aporeticism—overcoming/unovercoming~~ of prior-perspective—falsity/falseness/fallaciousness’). This effectively speaks to the need for the social-setup self-reflexivity as to a ‘requisite formation of an overall communioning socially-enculturated direct/indirect ontologising-capacity of good governance polity’ rather than an ontologically-

flawed ‘presumed incontrovertibility of the ontological-veracity-<as-to-prospective-ontologising-and-re-ontologising> of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction’ that seem to wrongly imply that by the mere governmental projection that a given developing country is of ‘supposedly relatively detached social enculturation of intellectualising/thinking-out/ontologising conception of overall sovereign polity design-and-implementation substantivity’ there is hardly any prospective need for a ‘requisite formation of an overall communioning socially-enculturated direct/indirect ontologising-capacity of good governance polity’ (as reflecting its ‘prospective postconverging-aporeticism—overcoming/unovercoming of prior-perspective—falsity/falseness/fallaciousness’); with this misrecognition critically central to the ‘social-functioning-and-accordance—as-of-social-stake-contention-or-confliction jeopardising/perilous nature of the political process’ in many a developing country especially during moments of political transition as to an ontologically-flawed notion that veridical sovereignty can afford to ignore a requisite basic ‘overall communioning socially-enculturated direct/indirect ontologising-capacity of good governance polity’ as so-enabling a prospering/self-sustaining/emancipating social-functioning-and-accordance—as-of-social-stake-contention-or-confliction (a reality which even many a developed country seem to be oblivious-to as to a naïve emphasis of an international relations largely skewed on the basis of mere governmental projection that a given developing country is of ‘supposedly relatively detached social enculturation of intellectualising/thinking-out/ontologising conception of overall sovereign polity design-and-implementation substantivity’ and in-many-ways such an orientation is relatively of poor assistance with regards to such a ‘requisite formation of an overall communioning socially-enculturated direct/indirect ontologising-capacity of good governance polity’ and rather sometimes ending up inducing a generalised political paranoia magnifying the poor dynamics of ‘overall communioning socially-enculturated direct/indirect ontologising-capacity of good governance polity’ as so-undermining

the possibility of a prospectively prospering/self-sustaining/emancipating social-functioning-and-accordance—as-of-social-stake-contention-or-confliction). This again fundamentally underlines the patchwork nature of international relations that fails to delve into a sound appraisal of a coherent and creative global and multilateral institutions and systems ontologising-capacity expansion as to a sublimating re-thinking/re-rationalisation of what is the-human/humanity; as international politics and its attendant crises rather arises/manifests as of a crises-driven ‘secondary and mitigating contemplative concern’. Unsurprisingly, this is in-many-ways the reflection of the political and institutional processes of many a developing country ontologically-flawed ‘presumed incontrovertibility of the ontological-veracity-<as-to-prospective-ontologising-and-re-ontologising> of social-functioning-and-accordance—as-of-social-stake-contention-or-confliction’ in the face of their manifest palliative and collateralising ‘vague normalised/stereotyped/selfhelping/feel-good narratives’ of institutional and media contrivance as of ‘process/processive mere-formulaic—conformity/trending/voguing/fashionability/resonance relation to <sup>56</sup>meaningfulness-and-teleology<sup>99</sup> devoid of ~~supererogatory~~~wholesomeness/profound-supererogation<sup>96</sup> as of prospective <sup>83</sup>reference-of-thought—point-of-devolving/departure/anchoring/backdrop\_of\_sublimating\_nascence-<as-to-the-grandest-axiomatic-construct-<sup>†epistemic-totalising</sup> re-apriorising/re-axiomatising/re-referencing~residuality—in-re-originariness/re-origination of limitedness/human-subpotency prospective re-encountering/re-confrontation with unlimitedness/existence>’ (as so-reflecting their ‘prospective postconverging~aporeticism-overcoming/unovercoming of prior-perspective—falsity/falseness/fallaciousness’); increasingly bent upon overlooking ‘appropriately sublimating technicity/profundity capable of veridically responding to social and institutional postconverging~aporeticism-overcoming/unovercoming’, and so-inducing ‘individuals reflective estrangement and disinterest with regards to optimal public outcomes of

This rather reflects the reality that the <cumulating/recomposuring~attendant-ontological-contiguity >-successive registry-worldviews/dimensions are not incipiently/seedingly the direct outcome of 'merely produced sublimating re-rationalisation-of-contentivity/argumentativity/dialecticism/discursivity' (which is not the existentially-<disontologising/re-ontologising-aporeticism> sufficient re-ontologising basis to aporetically supersede/overcome 'dominance/vested-interest structure in relative-ontological-incompleteness<sup>88</sup>-presublimation-construct-of-<sup>56</sup>meaningfulness-and-teleology<sup>99</sup> prospective desublimating rationalisation-of-contentivity/argumentativity/dialecticism/discursivity of social-and-institutional-frameworks-of—referencing/registering/decisioning and the derived value-construction' induced moronisation-<sublimating-nascence,-extricatory-desublimating-downstreaming/'avalage'>).

It is rather the 'existential constraining of the produced sublimating re-rationalisation-of-contentivity/argumentativity/dialecticism/discursivity' (as for instance the existential-<disontologising/re-ontologising-aporeticism> constraining of positivistic prospective cure from the doctor, positivistic prospective technical transformation from the technician/engineer,

positivistic prospective scientific breakthrough from the researcher, positivistic prospective social transformation from the social scientist/advocate/policymaker, etc.) that is ultimately bound cross-generationally to produce the prospective positivistic secondnatured institutionalisation superseding/overcoming of the human ontological-bad-faith/inauthenticity<sup>64</sup>~preconverging~de-mentating/structuring/paradigming<sup>65</sup> of non-positivising ‘dominance/vested-interest structure in relative-ontological-incompleteness<sup>88</sup>—presublimation-construct-of—<sup>56</sup>meaningfulness-and-teleology<sup>99</sup> prospective desublimating rationalisation-of—contentivity/argumentativity/dialecticism/discursivity of social-and-institutional-frameworks-of—referencing/registering/decisioning and the derived value-construction’ induced disontologising/subontologising moronisation-<sublimating—nascence,-extricatory-desublimating—downstreaming/‘avalage’>. In other words, the ‘prompting of supposed rationalisation-of—contentivity/argumentativity/dialecticism/discursivity’ is secondary-to-and-derived-from ‘prospective existentially-<disontologising/re-ontologising—aporeticism> exuding sublimating—nascence’ with the implications that it is naïve to construe of ‘rationalisation-of—contentivity/argumentativity/dialecticism/discursivity of social-and-institutional-frameworks-of—referencing/registering/decisioning’ as superseding ‘prospective existentially-<disontologising/re-ontologising—aporeticism> exuding sublimating—nascence’; as rather ‘rationalisations-of—contentivity/argumentativity/dialecticism/discursivity of social-and-institutional-frameworks-of—referencing/registering/decisioning’ are the secondnatured institutionalisation outcrop of ‘prospective existentially-<disontologising/re-ontologising—aporeticism> exuding sublimating—nascence’ and their prospective validation arises as of demonstrable ‘prospective existentially-<disontologising/re-ontologising—aporeticism> exuding sublimating—nascence’ validation of the given ‘rationalisation-of—contentivity/argumentativity/dialecticism/discursivity of social-and-institutional-frameworks-of—referencing/registering/decisioning’. The historicity of the matter (as of the undergirding

overall ~~relative-unreflexivity/relative-reflexivity~~—ontological-contiguity<sup>67</sup>~of-the-human-institutionalisation-process<sup>68</sup>) speaks to the very fact that ‘prospective existentially-~~<disontologising/re-ontologising—aporeticism>~~ exuding sublimating–nascence’ is exactly what (as undergirded by human profound-supererogation<sup>96</sup>) precedingly and recurrently ‘invents’/‘creates’–and–‘nurtures’ prospective human re-rationalisations–of–contentivity/argumentativity/dialecticism/discursivity as of the ~~<cumulating/recomposuring~attendant—ontological-contiguity >~~-successive registry-worldviews/dimensions; with the onus of veracity rather incumbent to the given ‘rationalisation–of–contentivity/argumentativity/dialecticism/discursivity of social-and-institutional-frameworks-of—referencing/registering/decisioning’ with respect to ‘prospective existentially-~~<disontologising/re-ontologising—aporeticism>~~ exuding sublimating–nascence’. Critically in this regards, sublimating ‘rationalisations–of–contentivity/argumentativity/dialecticism/discursivity of social-and-institutional-frameworks-of—referencing/registering/decisioning’ are more readily acquiescent to demonstrate their ‘prospective existentially-~~<disontologising/re-ontologising—aporeticism>~~ exuding sublimating–nascence’ (as of demoronisation-~~<sublimating–nascence, nonextricatory–sublimating–upstreaming/‘amontée’>~~ however their ‘tepid problem-of-direction of sublimation’) whereas desublimating ‘rationalisations–of–contentivity/argumentativity/dialecticism/discursivity of social-and-institutional-frameworks-of—referencing/registering/decisioning’ are more readily prone to strategies undermining the demonstration of ‘prospective existentially-~~<disontologising/re-ontologising—aporeticism>~~ exuding sublimating–nascence’ (as of moronisation-~~<sublimating–nascence, extricatory–desublimating–downstreaming/‘avalage’>~~ induced blurriness-~~<sterilising/anecdotalising/trivialising-of-prospective-re-ontologising\_by-preconverging,-in-~~disontologising-formulaic–dragging-out/hollowing-out> speaking of a ‘more profound problem-

This explains why the ‘genuine social intellectual–function/posture claim for prospective sublimating re-rationalisation–of–contentivity/argumentativity/dialecticism/discursivity of social-and-institutional-frameworks–of–referencing/registering/decisioning and the derived value-construction’ as of successive ‘demoronisation-<sublimating–nascence, ~~nonextricatory~~–sublimating–upstreaming/‘amontée’> breaks’ is necessarily cross-generational as to the existential-<disontologising/re-ontologising–aporeticism> impact of ‘prospective existentially-<disontologising/re-ontologising–aporeticism> exuding sublimating–nascence’ rather than a naïve exercise of ‘punctual aposteriorising/logicising/deriving convincing wrongly implying the same pedestal of prospective re-ontologising contemplation with the prior desublimating rationalisation–of–contentivity/argumentativity/dialecticism/discursivity’. Along the same token no one gets to carve-out a space of ‘supposed knowledge that is unchallengeable/unconstestable’ as even the Einsteins were challenged/contested and rather took heart in enabling the possibility for prospective human progress, and for that matter ‘there is no veridical knowledge purpose as merely challenging/contesting but rather striving to elucidate divergences/differences and so along the course of an instigated drive–of–contentivity/argumentativity/dialecticism/discursivity as to the ‘requisite projection of the coherence/contiguity of the superseding–oneness-of-ontology/ontological-veridicality/~~relative-unreflexivity/relative-reflexivity—ontological-contiguity~~<sup>67</sup>’ (as it can very much be argued in that sense that such a drive–of–contentivity/argumentativity/dialecticism/discursivity as herein articulated in different respects is equally making implicated challenges/contestations to budding-postmodern thought as to the ‘priority/precedence/primacy of prospective ontologising/scientific/existence-<honesty-constraining> purposefulness than just intellectually vague complimenting’).
