HAL is a multi-disciplinary open access archive for the deposit and dissemination of scientific research documents, whether they are published or not. The documents may come from teaching and research institutions in France or abroad, or from public or private research centers.

L'archive ouverte pluridisciplinaire **HAL**, est destinée au dépôt et à la diffusion de documents scientifiques de niveau recherche, publiés ou non, émanant des établissements d'enseignement et de recherche français ou étrangers, des laboratoires publics ou privés.

The experiment in figures

- 6 French alpine municipalities
Grenoble – Claix – Meylan, Aiguilles, Ceillac, La Roche de Rame
- 18 days of surveys in 2019
- 217 participants

Source of knowledge

What is the source of the knowledge that led you to make your choice?

151 People interviewed
1888 Sources collected
classified in 18 categories

Side effects

- An interesting tool for raising awareness among the population
- Emotions caused by the experiment:

Impact of preventive information on behaviours

Perspectives

- Recommendations for stakeholders
- Evaluation protocol + user guide
